EDUCATION

Arizona State University, W.P. Carey School of Business

Master of Science in Business Analytics — GPA: 4.0/4.0

Tempe, AZ

Dec 2025

Mar Baselios College of Engineering and Technology

Bachelor of Technology in Engineering — GPA: 3.02/4.0

Kerala, India

Jun 2022

EXPERIENCE

Ernst & Young (EY)

Software Engineer / Business Analyst

Aug 2022 – Dec 2024

Kerala, India

- Built 4 enterprise AI automation systems (Python, C#, REST APIs) handling 1,200+ monthly interactions; cut manual touchpoints by 30%
- Ran session-level funnel analysis, found a 35% drop-off in automated workflows, redesigned failure touchpoints, and recovered 420 monthly sessions with a 15% engagement lift
- Built Python data pipelines replacing 8+ hours/week of manual reporting; cut data lag from 2 days to same-day and reduced operational overhead 25%
- Gathered requirements, wrote functional specifications and acceptance criteria, and coordinated delivery through formal UAT cycles with business stakeholders

National Institute of Speech and Hearing

Intern, Assistive Technology

Jun 2019 – Aug 2019

Kerala, India

- Built assistive software applications and captured usability requirements; translated testing observations into prioritized product improvements

PROJECTS

GTM Signal Intelligence Platform | *FastAPI, Python, Supabase, Groq LLM, React, GitHub Actions, Vercel* Live – [dashboard](#)

- Monitors 4 AI coding tools (Cursor, Windsurf, Copilot, Codeium) across Reddit, HackerNews, and changelogs; Groq LLM scores each signal by business impact (High/Med/Low); daily Telegram digest and live dashboard on a GitHub Actions cron at \$0/month

GTM Automation Stack | *Claude API, Make, Apollo, Apify, Puppeteer, Python, n8n*

In Production 1+ yr

- End-to-end outbound pipeline: Apify sourcing, Apollo enrichment, Puppeteer + Claude API for personalized outreach copy with structured output constraints and fallback logic; Make orchestrates with branching, retries, and error handling; no GitHub link due to live credentials

Prompt Wrapped | *React 18, TypeScript, Vite, Vercel* | prompt-wrapped.vercel.app

Live

- Parses ChatGPT and Claude conversation exports into Spotify Wrapped-style usage reports; built and shipped solo in one week end-to-end; all processing client-side with no backend and \$0 infrastructure

Enterprise Business Analytics Capstone | *SQL, Python, Tableau, Power BI* | ★ Outstanding Capstone Team Award

- Translated multi-source business data into strategic analytical frameworks and interactive dashboards; recognized for exceptional clarity of stakeholder-ready insights

Employee Attrition Prediction | *Python, SMOTE, Machine Learning*

- HR analytics model achieving 91.9% accuracy and AUC 0.97 across 1,470 records; identified job involvement, work-life balance, and stock options as top attrition drivers

TECHNICAL SKILLS

GTM & AI Automation: Claude API, Make (Integromat), n8n, Apify, Apollo, Puppeteer, Prompt Engineering, REST APIs

Languages & Frameworks: Python, SQL, TypeScript, React, FastAPI, Git

Analytics & BI: Tableau, Power BI, Grafana, Excel (Advanced), Supabase, Data Modeling

Certifications: Oracle OCI Data Science Professional, Oracle OCI Generative AI Professional, Microsoft AZ-900, Microsoft DP-600 Fabric Analytics, Lean Six Sigma Green Belt
